Registration matters!

Check their chip

A microchip alone isn't enough to reunite you with your pet. If your pet's microchip isn't registered, they may not be able to get home to you when it matters.

NZCAR is New Zealand's national microchip register, helping reunite lost pets with their families. If lost, pets are three times more likely to get home if their microchip details (and your contact details!) are up to date on the NZCAR.

Protect your pet!

Permanent identification linked to you

Accessible by 1000+ Approved Users

One-off fee lasting their lifetime
